## SUMMARY

### Full Stack Developer (MERN & Python/Django)

Motivated Full Stack Developer with experience in building web applications using the **MERN stack** (MongoDB, Express.js, React.js, Node.js), **Python Django**, and **PostgreSQL**. Skilled in front-end and back-end development, RESTful API creation, and database management. Proficient in using modern tools like Git for version control and delivering clean, maintainable code. Passionate about learning new technologies and contributing to user-focused, functional applications.

## EDUCATION

### Bachelor of Information Management

Tribhuvan University

2020 - 2024

## EXPERIENCE

### Full stack Developer

#### Upveda Technology

Madan Bhandari Path, House No.: 1061, New baneshwor

Upveda Technology Pvt. Ltd. is an **ISO 9001:2015 Certified Company** specializing in software and mobile application development since 2010.

With expertise in next-generation application development, we design, develop, and enhance software products, enabling our clients to focus on their core business goals. Backed by a team of creative designers, skilled developers, and vigilant project managers, we are committed to delivering exceptional digital solutions tailored to your needs.

- I have developed backend and frontend of an Indian project for **Consistent Infosystems Private Limited being under the team**
- Worked with Python Django to develop automated solutions to include web interfaces using HTML, CSS, Bootstrap, ReactJS with PostgreSQL for database
- Worked with a group of 5 members to achieve the task
